Glenn Swanson will be the fourth "Zaza" to be given to the public in a stupendous production. The picture which will be on view at the Memorial Hall, next Saturday, was produced under the direction of Allan Dwan, and it is said to be the greatest picture of her screen repertoire. For lavish setting and picturesque investiture the present production of the famous French play, which, according to reports, was suggested to Charles Simon, one of the authors, by Sarah Bernhardt surpasses anything Miss Swanson has ever done on the screen.

The statement of the premier and the resolution brought in by Attorney General Brownlee, regarding the acceptance of the federal government's offer for the transfer of the natural resources which was unanimously adopted by the house.

1. That the government should continue its negotiations with the Dominion government for the immediate transfer to the Province of its Natural Resources

2. For the purpose of obtaining an immediate settlement of this important question, this house authorizes the Government to accept the offer of the Dominion Government to transfer to the Province its natural resources on the basis of an accounting from 1905, subject to an agreement to be reached as to the terms of such accounting and the terms of the transfer, provided, however, that the Government is further authorized to accept such fixed sum to be paid by the Dominion to the Province in lieu of such accounting, as it shall consider adequate after a further consideration of the probable result of such an accounting.

Another important piece of legislation that was passed was in connection with the co-operative wheat producers which is the United company of the wheat pool. It provides for the \$50,000,000 guarantee for the 15% margins by the province, and the Lieutenant Governor in Council must make a special payment. Also an advance of \$1,000,000 of one million dollars by the province for the purchase of elevators already built providing the company puts up 15% of the purchase price, and the repayment is made in twenty years.

Mr. L. B. O. Loden attended the Educational Congress of the Life Insurance Association of Alberta, held at the Palmer Hotel, Calgary, on Thursday and Friday of last week. Mr. Loden received great benefit from the sessions, especially from the lectures conducted by Mr. E. J. Mowbray, President Life Underwriters Association of Canada. These educational meetings are doing much to put insurance on a scientific and practical basis, and Mr. Loden is to be congratulated on the interest he is taking in fitting himself for the future. Since he entered the business, his experience will be of benefit to the people of Strathmore.

Readers will note in our ad, column the dance which is being put on by St. Michael's Guild in the Memorial Hall on Easter Monday, April 21st. The ladies are making every effort to ensure a good time for all attending.

The visit of Dr. J. Marshall, research chemist, Nottingham, England, to Toronto University, to investigate on behalf of the Boots Chemical firm, the recent discovery of insulin, has been entirely successful. The result of his experimental work having been turned over to their chemical department, the manufacture of insulin for commercial purposes will be proceeded with. Last fall he visited with his brother, Dr. R. B. Marshall, Strathmore.

A very enjoyable evening's entertainment was given by the pupils of Miss Gladys Atree at the Memorial Hall on Wednesday evening. Mr. Tiedt of the Belcher Flour Mill, will have the sympathy of the public in the loss of his plant and building by fire. The Belcher Mill was a great loss to the farmers of the district, and some came from as far as Strathmore to have flour made from their wheat. The loss is estimated at from \$140,000 to \$170,000, with \$60,000 insurance.

It looks as if the townpeople had more called to be ruled over the county than the farmers or the Government with regard to the state of the roads. Some work has been done both on the main Calgary-Medicine Hat road and the Bow Valley roads, but the town has not yet made a start, and we have considerable complaint from farmers that the roads close to town are the worst of the whole lot. Let's get busy.

Craigantler News

The cattle dip went off very satisfactorily, but slow. Quite a number got their horns full of dust.

Rev. Mr. Brown, of Toronto, was the man chosen for the Gooden Church, and it is expected that he will take up his duties in about three weeks time.

H. B. Grant had charge of the dip, and he intends having the dip in better working order for the second dipping, which takes place on the 14th.

John Nordquist has his place fitted up in first-class shape for chicken raising. The hen-slinging is in the creek, and is not too late to mend.

Lars Selnesen has had a very enjoyable winter in his old home, but now the spring season here he says he won't bother much with it all fall again.

Mr. James, of Medicine Hat, is visiting here. Mrs. W. Campbell, and Mr. W. Campbell, arrived back from Portland, Oregon, last week.

Bill says they had a fine time, and enjoyed a long walk with him and with Mr. Shaw. Mr. Shaw is over seventy years of age, but Bill, his son, could keep up with him on an eight mile trip.

Craigantler is the only school, with the exception of one or two new schools built lately that has not got a well. Taking into consideration that the school was built in 1912, it is time the children had a well at the school, and water that is drinkable. We can blame different kinds of water for sickness more than anything else.

A corn show for the province of Alberta is to be held next November in Medicine Hat.

Somehow Alberta has been forging ahead as a corn growing district during the past few years the acreage having jumped from less than one thousand acres in 1915 to over fifty thousand acres last year. There have been classes for corn at a few of the local fairs, and at the Provincial Winter Seed Show for several years, but no serious attempt has previously been made to bring out exhibits from the hundreds of farmers who are making corn one of their regular crops.

At the show next fall classes will be provided for the varieties most largely grown, such as Northwestern Dent, Dakota White Flint, Galt, Quebec No. 28, Minnesota No. 23, and others. There will also be classes for Sweet Corn, Popcorn, White and Coloured Beans, and Sunflower Seed.

INDUSTRIAL PAYROLL

The approximate industrial payroll of the Province of Alberta for the year 1923, including the mining industry, was \$42,600,000, according to figures obtainable from the Compensation Board.

Last week a man from Hamilton, Ontario, speaking in Calgary described that city as a "wonderful little city" and "a beautiful little place." This, coming from a Hamilton man, is thought to make the late lamented Bob Edwards, who developed Hamilton occasionally in the columns of the "Eye-Opener," turn in his grave.

The elimination of the sales tax has reduced 60¢ the tariff on agricultural implements is the greatest tangible benefit that the west has received for some time, and it is a justification for the continued existence of the Pro-Protective Party. Tax reductions will amount to about thirty dollars on the cost of a binder, and corresponding amounts on other implements. In the past manufacturers have been able to import their tools of production and raw material free of duty, and the same privilege should have been extended to farmers many years ago. The west is becoming tired of being the milk cow of the east, and of being a "come-over" with its goods in the market for our products. The provision of a market is the only justification for a protective tariff. Our present "home market" in the United Kingdom, and the best way to develop and extend that home market, which today is providing Western Canada with its existence, is to afford encouragement to old country manufacturers, and to manufacturers in Western Canada. With the development of the Vancouver market, regional trade will be of greater mutual benefit to us every year. If British capital and products are not discouraged by tariff, set in the hands of those who do not buy our products, British has to sell goods in buy food, and naturally she will buy where she sells. The principle that is being administered to the Motherland by Eastern politicians are poor business, and the desire to assert a political independence of the empire while we are economically bound to it is only justified by the wish of eastern politicians to find jobs for themselves and their relatives or subordinates, trade commissioners etc., and by the existence of a parochial outlook on world affairs. The trend of the world today is towards unity of the English-speaking nations, and all we can do is fostering closer political and trade relations between ourselves, Britain, and the United States, is well spent effort.

Of course, the foregoing will not be much news to those in the West Valley who are considering leaving the English speaking world and going to Bolivia. We were in the last test of the Contract Holders' edition the 19th of March and the land for "Johnnie Trege." When he goes one of our local poets may be able to write a masterpiece commencing "There is a great hill far away."

We wish some of those who have been talking Bolivia could have been told the address delivered by Premier Greenfield at the Vimy Ridge Dinner in Calgary on Wednesday. The former premier is an optimist on Alberta. As he stated, he came here as a laborer, homesteaded, and made a success of his farm. He believes that anyone else who has the "guts" can do so too, and says that at the present time the Alberta farmer is better off than any other farmer in the world, with the possible exception of the Dutch, whose cooperation is being practiced to the limit. He concludes by saying that it was his opinion when he got in front of the fire in the evening with his pipe, to endeavor to visit the Alberta of twenty or twenty-five years from now, his population increased many times, and his resources now being dominant, being developed to their full extent. When his time to relinquish office comes, he will be quite content to go back, like Cincinnati, to the plow.

By the way, with the bulletin issued by the Dominion is enclosed a bulletin dealing with the growing of sunflowers, and the sale of seed. Is this,

the flower with the largest area of production, the national emblem of Bolivia meaning the to-be-ripe flower of those who are attempting to achieve the contract holders?

THE VINNY ANNIVERSARY
Twenty thousand Canadians were killed or wounded in action on Vimy Ridge on April 9, 1917. During the course of the war 35,000 men of the Canadian forces died of injuries received in action. When it is recalled that the total number of men of Canadian descent who served in France, was not much over 200,000, this shows a very heavy mortality. Some of these men came from this particular district. Others are associated by relationship or friendship with residents of this district. A movement is on foot to raise \$500 to complete a memorial tablet in the Memorial Hall grounds at Strathmore in memory of these men.

If we appreciate the freedom these men secured for us, after three months, and sometimes years of privation and fatigue, we will give the money for this purpose without the necessity of appeals and personal canvassing. Money for this purpose (which represents not a donation but a duty) can be handed to Mr. C. S. B. Laid, at the Union Bank, Strathmore. Dr. Givins, or members of the C.W.A. We understand about \$125 is now in the fund, and it would be appropriate if the sum, we received so far, the tablet could be unveiled on Peace Day, July 15.

HUGE FORD PRODUCTION

FORD, Ontario—More than 125,000 automobiles will be produced in the new \$12,000,000 plant of the Ford Motor Company of Canada, Limited, here during the year of 1924, according to an announcement made today by officials of that Company.

This production figure equals about 100 cars every working day of the year. Therefore, approximately 50 complete automobiles will be produced every hour of the eight-hour working day. Nearly a car a minute, a marvellous procedure.

One year ago the average car sold was approximately 250 cars a day, so the production capacity of the great Ford plant here has practically doubled in less than one year.

The new 15 new machine shop, all under one roof, has made this production record possible. It was started. The incident demand for Ford cars throughout Canada and the other British Dominions has brought the largest expansion program ever undertaken by an automobile Company outside the United States. The first car to be produced in the recently completed machine shop was a new style Ford Coupe, motor number 481,266, and was driven from the new factory complete, on December 2nd. Since that time a steady stream of Ford automobiles, including the attractive new model T-model, has been leaving the plant.

BASEBALL PROSPECTS

Harc-Bolled!

Rosebud Notes

Our former fellow townsman, Ora Burgen, played the leading comedy role in the farce-comedy entitled "A Poor Married Man," which was presented recently at Tudor, Redlands, and the C. N. school house.

The cast of characters is as follows: Jasper Jackson, Ora Burgen; Professor John B. Wise, A. E. Fredale; Dr. Matthew Graham, Wm. Hopper; Billy Blake, Wm. Fredale; Mrs. Iona Ford, Sylvia Grant; Kate, Hazel Long; Gus Graham, Lillian Fredale; Rosalind Wilson, Alice Mae Dulester.

The play was perfectly staged and well directed by Mr. D. F. McGowan, and the consensus of the opinions of the large delighted crowds was that the work of all the players was so admirable that it was impossible to choose from among them.

But, as so often happens, in a play of this type, the character cast for a minor role stole the limelight from the stars. This is probably due to Mr. Burgen's fitness for the part, and to his innate sense of the ridiculous.

We understand that Mr. McGowan has selected the strongest members of this cast to produce another of these delightful comedies next winter. And it is to be hoped that "Jupiter" will be among them.

C. P. R. Tennis

The Western Section Tennis Association has been reorganizing after some years of existence in a rather dormant condition. An enthusiastic meeting was held on April 9th, with about fifteen players in attendance. It is expected that there will be about twenty-five members in the association, and a busy season is in prospect.

Mr. Stockton was elected president, and Mr. P. C. Nalimith, secretary-treasurer.

The Rules and Grounds Committee include the above and Mr. H. S. Van Tighem, Mr. Ben Fossenden, Mr. George Young, Mr. Syd Hyde.

The courts at Irrigation headquarters are to be put in good order, and owing to the number in the club, the use of the courts will be limited to the club players, and subject to the scheduling of the Rules and Grounds Committee.

It is hoped that tournament play can be arranged with the Strathmore Tennis Club, and outside clubs.

The softers and softers are very busy, but tennis is not dead yet.

FOOTBALLERS MEET APRIL 22nd

The Association Football game has been dormant in Strathmore for some years, but some fresh players have arrived in town since last summer, and there is good material for a team.

A meeting to organize a club will be held in the Town Hall at 8 p.m., on Tuesday evening, the 22nd, and all interested in the game are invited.

BASEBALL PROSPECTS

The joint managers of the Strathmore Baseball Club, L. B. O. Lodmell and Jos. Van Tighem, have been doing considerable preparatory work and report that they are getting a team organized that will be worthy of the town, and have quite a talent ready to go. Which is good news.

On Saturday evening last the pupils of Grasswood school gave a very interesting programme, every child taking part and doing exceptionally well. Solos were contributed by Mr. Michels, Mr. Howard Hymas, and Mr. Dan McEwan, and reading by Mrs. Buzzard, Mrs. Barr and Miss Brown. Music was provided by the Hymas orchestra after the concert and every one had a most delightful evening.

UPON BLUNDERING INTO A KLOONAU

Upon blundering into a kloonauf of farmers down in Bunt's place in business near the south road, we were greeted with the startling news that Lester Comstock was married and Joe Stanley expected to be just as soon as he sells another load of wheat, also that Mr. Brunner is delivering temperance lectures now. Mr. Nalimith and his wife have just got Nick's pet truck fixed, and Doc Kemp is shelling out in a fine field two loads of seed wheat, all ready treated which he was planning to plant when the blizzard broke. This is all true as everyone here vouches for it.

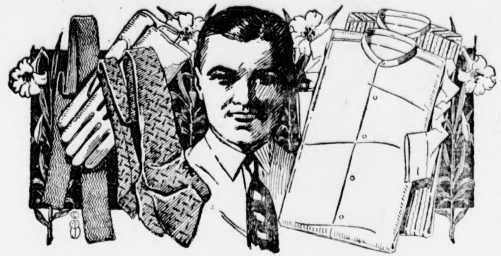

Mrs. Thos. Anderson is visiting with Mr. and Mrs. Buzzard.

Miss Nellie Gross spent the week end in Calgary.

The Rev. Mr. Brown conducted the services in Rosebud United Church on Sunday last and delivered a very interesting address. There was a splendid attendance.

Mr. Warren Riley has purchased a nice new Columbia Six.

Mr. George Gross spent last week end visiting her brothers, Messrs. Wegener, and their families, at Belton.

One of the most notable celebrations ever held in Western Canada will take place on July 1 and 2 of this year at the town of Macleod, in Southern Alberta, when the establishment of the first post of the Royal North-West Mounted Police in Western Canada, at old Fort Macleod, will be commemorated. The celebration is being held under the auspices of the mounted police veterans and the Town of Macleod.

The establishment of the post took place in October of 1874, fifty years ago, by Col. Macleod, and the first

"RIDE 'IN COW--ER--ER--COWGIRL!"

This fair young lady—Miss Dawn Glover, of the western plains—may not know much about bridge whist, afternoon tea, champagne or snook, but she is a "backbit brooch" when it comes to riding a "backbit brooch" —say, she sure wiggles a wicked spur. Look at her, perched up there in her saddle with her horse pawing the air. She's as comfortable in that position as a grandma in a rocking chair.

Miss Glover started riding horses when she was old enough to be fitted into the saddle. And she's won no end of honor as a skilled equestrienne, at the many rodeos held in various parts of the west during recent years.

This particular picture of her was made at the time William Gibbs McMillan—democratic aspirant to the presidency—visited a rodeo held at Hollywood, Calif., in honor of the world's champion cowboy, Yakima Canutt. Miss Glover was one of the star performers at the event.

BOBBED HAIR TO RESULT IN BALD HEADED WOMEN

NEW YORK—Bobbed hair is a sure means for causing baldness, and it won't be many years before the world is filled with bald-headed women, Joseph Byrne, editor of a beauty magazine, said, in addressing the annual convention of the American Hair Dressers' association today.

Milliners, he explained, in order to

conform to present hair styles, have been obliged to make head bands exceedingly tight to keep the hat on, resulting in the death of the hair. Mr. Byrne asserts that girls of the present generation would be bald before they reached maturity.

Charles Nestle, vice-president of the association, characterized the bobbing of hair as the "greatest misfortune to come to women in recent years."

Irricana News

Mr. Percy Hallam proposes operating a blacksmith's shop in his farm house, Irricana. Mr. Hallam successfully operated a blacksmith business in Irricana in the early days.

A party card party about several hours is celebrating at the home of Dr. and Mrs. Vincent on June day evening. Amongst the invited guests were: Mr. and Mrs. R. Smith, Mr. and Mrs. J. J. Naves, Mr. and Mrs. Jean Marshall, Miss Eileen Stephens, Miss Ethel Wright, Mr. and Mrs. H. Miller, and Mr. and Mrs. Stewart Hutchings.

Mr. John Gatz, one time merchant, and lately tax collector at Beiseker, has moved into the city to reside.

Andy Archibald (Scotty) tied a brand new ball before driving off on Sunday morning. After juggling for several minutes with his driver, and taking a long, long look at the ball, Percy Hallam (English) becoming impatient, remarked: "Why don't you lift it, Andy?" "Well, sure," said Andy, "I just paid fifty cents for it and I may never see it again."

"Advance Roma." This prosperous and enterprising district is the proud possession of a smart and manly ally, under the able supervision of Mr. Tom Hull. Mr. Hull is an old time sport enthusiast, and for some years was official referee for senior football cup ties in England. Both George Koch (Alberta's Babe Ruth), and Lefty Brown will help swell the ranks of the Roma aggregate. We hope to be able to get our V back from England's English Fair before the season closes.

Miss Lois Chapman, teacher of juvenile classes, is visiting a sister at settling.

Mr. Harry Graham, one of Alberta's old timers, has secured the position made vacant last fall by Mr. Whitely, sack, watermaster at Calgary. Mr. Graham owned and operated the Maylor Trading Company's store at one time, and still retains an interest in the business.

Dr. H. Howell and Mr. Percy Hallam motored to Calgary on Monday. Mr. Nels Hendricks was a visitor to Irricana on Saturday.

discharged a cargo of Cascan, consigned to the settlement of ex-C.P.R. contract holders up country. Doc Hardin will convey the cargo to the sick settlers.

A largely-signed petition has been forwarded by a runner, (there is no mail service yet) to the president general at Regina by the women who initiated from Irricana, to reduce the recently imposed tax on shredded wheat skirts.

The revolution which started owing to settlers from Alberta refusing to adhere to compulsory military training, has slightly subsided.

A wireless has been transmitted to Col. Doughty, Calgary, by the ex-C.P.R. contract holders, craving forgiveness and politely requesting free transportation back to Alberta. Everybody knows the weakness of the big-hearted colonel, and a satisfactory reply is expected any minute.

The town of Moses Trogo has a forlorn looking aspect. The inhabitants, who chiefly comprised former Irricana farmers, and a sprinkling of ex-C.P.R. contract holders from Ardenne, are trekking towards the westward, a group of some 300 miles. The moving mass of humanity is headed by persistent grey-headed Moses Trogo himself, and a single rider, who formerly hailed from Ponce, The settlers (excluding those who died of malaria and yellow fever) disposed of their worldly belongings to the grinning natives for a few bolivianos.

NEW SANITARY REGULATIONS

At last night's meeting of Strathmore Town Council new sanitary regulations were adopted requiring that all yards be cleaned up immediately, and that hereafter garbage, etc., would have to be kept in sanitary containers, which will be emptied regularly by the Town Contractor, Mr. John Schauffel. Mr. Oliver Wright was given the contract for cleaning up the old nuisance ground at \$225.

The Council decided to buy a No. 4 Massey-Harris Grader for use on town roads.

Details of the sanitary regulations will be found in our ad. columns.

Go to Church = Easter Sunday

The church is an invaluable institution in our community, for it represents the brotherhood of man. It is inspiring men and women to live godly lives; it is building character for coming generations; it is helping the poor and bringing cheer to unfortunates—all of which makes this community a better place in which to live.

As an individual, part of this community, you should help carry on the good work of its churches and lend them your loyal support.

Here are the Easter Programmes of Strathmore Churches:

Out of the woods my Master went.

And he was well-content.

Out of the woods my Master came.

Content with death and shame.

When death and shame would woo him last.

From under the trees they drew him last;

'Twas on a tree they slew him last.

When out of the woods He came.
